

## **SAI 010 – Amphibious, Floats and Skis**

Aircrafts equipped with floats are covered under this Insurance only if taking off/landing from/to water. Furthermore; no claims resulting from contact with ice is covered hereunder Hull Ground All Risk covers only when the aircraft is on shore.

As regards aircrafts equipped with skis, landing and/or take off is only permitted on/from snow or ice, unless the aircraft is equipped with integrated wheels in which case landing and/or take off on land is also permitted.

The undercarriage parts which not are mounted on the aircraft, but included in the Aircraft specification, are covered against steeling, fire and water damage, when they are storage in a locked hangar.

### **Definitions:**

**Amphibious:** aircraft intended and equipped for use on both land and water

**Floats:** Landing gear intended for use on water only.

**Skis:** Landing gear intended for landing and/or take off on snow only except skis with integrated wheels which are permitted for landing and/or take on snow or land
